

Spellings

Each week children will have 10 personalised spellings that they will need to practise ready for their weekly test.

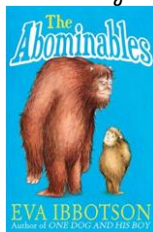

Maths

As part of our Maths unit this half term we will be learning about place value within 1000. We will then move onto addition and subtraction, where we will add and subtract 3 digit numbers.

Reading

Children need to be reading daily. You will have a book in your book bag, and you can change it when you have read it, and understood it.

Where possible please read aloud to an adult as often as you can. Discuss your books with them and why you have chosen it. This is a recommended book from the Year 3 reading spine

Curriculum tasks

In our first topic we will look at Europe, looking at different countries within it and their regions. Below are some ideas to enhance learning at home.

1. We will be exploring some different countries within Europe. Can you create a fact file on a European country of your choice?
2. As part of our research into the country Italy, we will be making Piadinatas at school. Can you follow a recipe and make a European dish to try? You may wish to bring in the recipe or photos of your creation to share with the class.
3. Can you make a 3D map of Europe? You might make this from Lego, card, paper, play dough or on a computer.
4. Feel free to be creative and create your own homework ideas.

DON'T FORGET TO SEND US PICTURES OF YOUR CREATIONS ON GOOGLE CLASSROOM.

Century

Children will be provided with weekly activities on Century / Sumdog which reinforce the learning from that week.

<https://www.century.tech/>

TT Rockstars

It is essential children know their all of their 12x tables

Please visit; www.ttrockstars.com

Log on and complete the online timetables.

Physical Activity

The benefits of being active for at least 60 minutes each day are: cardiovascular health, healthy body, improve self-confidence, academic performance, memory

Activities include:

- *Walk with your family (scoot or bike)
- *Swimming
- *Joe Wicks workout
- *Dancing

Science

As part of our Science unit this half term we will be learning about forces and magnets. We will identify different magnets and their uses, explain what magnetic fields are and compare movement and friction on different surfaces.
