

Prior Learning: Children have been learning about their family in Autumn 1. This project will build upon this by looking at where they live and knowledge of the world around them.

Can you catch
a star?

We will learn about the sun and explore light and dark. We will paint a replica of Van Gogh's 'Starry Night' picture and experiment with other media like oil pastels and chalk

Can we move
in Space?

Who lives in Space?

We will read books about Space and look at pictures and videos to decide if there is anyone living in Space. We will sing songs to help us learn the names of the planets in our Solar System.

Unit Pathway: Science
Is there anybody out
there?

Oracy

We will explore how astronauts travel to Space and make Green Screen videos of children on different planets. We will learn about gravity and about Neil Armstrong. We will also look at the importance of looking after our planet.

Global

Experience

How do we get to
the moon?

Teamwork

Core Text:

'The Man on the Moon'
by Simon Bartrum

We will look at different modes of transport and why rockets are used to go to Space. We will make 3D rockets and have an experiment to make them fly.
