

# Stone Age to the Iron Age

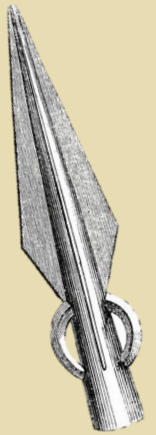

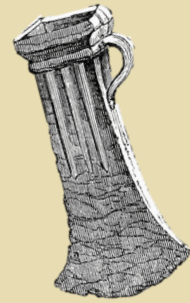

1. To begin this unit of work as historians, we will explore different periods of time whilst understanding key terms such as BC and AD.

2. Following this, and continuing our work as historians, we will find out about the everyday lives of people from the Stone Age, Bronze Age and Iron Age.

3. As artists we will explore and experiment with different colour mixtures. We will use these skills to create our own cave paintings based on Lascaux Cave in France.

4. We will use our investigation skills to gather research based on Skara Brae and use this information to create an information report.

5. Using our geographical skills we will use a map to navigate ourselves to the highest point of Beacon Hill.

6. We will research Stonehenge, Iron age Roundhouses and Celtic Brooches, creating our own replicas of these.
