

# INVADERS AND SETTLERS

We will begin our unit as Historians and recap our knowledge of British invasions over time. We will plot periods of history on a timeline and understand which areas of Britain were invaded and which areas people settled in. This will involve exploring what is meant by the 'Dark Ages'.

As Geographers, we will explore who the Anglo-Saxons and Vikings were and where they came from using map symbols and 4-figure grid references to describe their location.

To develop our history skills further, we will explore Norse mythology and investigate the daily lives of Anglo-Saxons and Vikings. This will include understanding Viking combat and weaponry.

As Artists, we will recap our knowledge of different types of lines and shading techniques and use this knowledge to create detailed drawings of Viking weaponry from historical artefacts.

To bring the learning to a close, we will use our historical skills to study the Battle of Hastings with a focus on the Bayeux Tapestry before using printing techniques to produce our own narrative of our learning onto fabric.
